About Us

KISSAN HENNA AND HERBALS

Our Heritage

Established in 2011 and headquartered in the renowned henna hub of Sojat City, Rajasthan, Kissan Henna And Herbals has grown into one of India's most trusted manufacturers, suppliers, and wholesalers of premium Henna and Herbal products.

Rooted in Tradition, Driven by Quality

With deep-rooted expertise and generational knowledge of Rajasthan's henna culture, we process every product with meticulous care — preserving its natural colour, purity, and therapeutic potency. Our product range serves the global cosmetics, wellness, and hair-care industries.

World-Class Infrastructure

Our state-of-the-art processing facility is equipped with advanced machinery that ensures every batch meets rigorous quality benchmarks. From raw cultivation to finished powder, our end-to-end process is supervised by experienced quality controllers who conduct multi-stage testing at every step.

Our Promise to You

We deliver on time. We deliver pure. We deliver trust.

Henna Leaves (Raw Form)

We also supply premium sun-dried whole and crushed henna leaves in bulk for B2B clients.

Herbal Products

Amla Raw & Powder

(Indian Gooseberry)

Rich in Vitamin C; promotes hair growth and strengthens follicles. Superb for hair masks and tonics.

Aritha Raw & Powder

(Soap Nut)

Natural saponin-rich cleanser ideal for sulphate-free shampoo formulations. Gentle and effective.

Shikakai Raw & Powder

(Hair Fruit)

Traditional hair-washing pod delivering deep cleansing, detangling, and natural shine enhancement.

Bhringraj Raw & Powder

(False Daisy)

The "King of Hair" herb — revered in Ayurveda for preventing hair loss and stimulating regrowth.

Brahmi Raw & Powder

(Water Hyssop)

Powerful adaptogenic herb that strengthens the hair shaft, reduces breakage, and calms the scalp.

Neem Raw & Powder

(Indian Lilac)

Potent antifungal and antibacterial properties make it indispensable in scalp and skin care products.

Hibiscus Flower & Powder

(Rosemallow)

Vibrant flower powder with natural conditioning agents that add shine and promote scalp health.

Orange Peel Raw & Powder

(Citrus Aurantium)

Rich in citrus bioflavonoids; brightens complexion and adds a refreshing citrus note to formulations.

Rose Petal Powder

(Rosa Damascena)

Delicate and aromatic powder used in luxury skin-care, face masks, and bath product formulations.

Multani Mitti Powder

(Fuller's Earth)

Mineral-rich clay for deep skin cleansing, pore tightening, and oil control in face mask blends.

Aloe Vera Powder

(Aloe Barbadensi)

Soothing, hydrating succulent powder perfect for after-sun products, moisturisers, and hair gels.

Process & Quality

Our 6-step quality assurance pipeline

01

Raw Material Procurement

Henna leaves and botanicals are sourced exclusively from verified farms in Rajasthan and across India, selected for their superior quality and lawsone

02

Cleaning & Sorting

All raw materials undergo thorough cleaning, hand-sorting, and inspection to remove foreign matter, ensuring only the finest inputs enter our processing chain.

03

Sun-Drying & Controlled Drying

Ingredients are carefully dried using traditional sun-drying methods and controlled-temperature chambers to preserve their active phytochemicals and

04

Precision Milling

Advanced grinding and milling equipment pulverises dried materials to consistent micron-level fineness, ensuring uniform texture and superior solubility in

05

Laboratory Testing

Every batch is tested by our in-house quality team and third-party laboratories for microbial load, heavy metals, moisture content, and colour intensity.

06

Hygienic Packaging & Dispatch

Certified-pure products are sealed in food-grade, moisture-proof packaging in our clean-room environment, ready for safe, timely dispatch to global clients.

Vertical Integration

From farm to finished product — we cultivate, process, and supply under one roof, giving you complete traceability and superior consistency in every batch.

Advanced Processing

State-of-the-art milling, drying, and packaging machinery ensures product uniformity, hygiene, and shelf-life that consistently exceeds industry standards.

Flexible Order Quantities

Whether you need sample quantities for R&D or multi-tonne bulk orders, we accommodate all scales with the same level of care and attention to detail.

Global Export Experience

We have successfully exported to clients across Europe, the Middle East, Southeast Asia, and the Americas — understanding diverse regulatory and labelling requirements.

Lab-Tested Purity

Every product batch is subjected to rigorous laboratory analysis — covering microbial safety, heavy metal screening, colour value, and moisture content.

Dedicated Account Support

Our experienced team provides personalised pre-sales consultation, sample dispatch, custom formulation assistance, and responsive after-sales support.

"Trusted by cosmetics brands, Ayurvedic formulators, and hair-care manufacturers worldwide."

15 years of consistent quality · Timely delivery · Transparent sourcing
